Experience

VIKABH SECURITIES *(Proprietary trading firm)* — Jun'23-Apr'26, **Mumbai**
Associate Portfolio Manager (2-3% monthly returns, managed ₹100 cr portfolio)
Financial Analysis & Capital Allocation
- **Managed a ₹100 cr derivatives portfolio at 2-3% monthly returns**, owning research and backtesting to **live execution**
- **Stress-tested every idea on 300-400+ trade backtests**, killing weak cases early and **funding only proven returns**
- **Led daily pre-market reviews** for the desk, turning macro data, institutional flows and company results into **clear calls**

Zero-to-One Business Builds
- **Set up a U.S. options desk from India in 2 months**, building the workflows and infrastructure to run a **new ₹10 cr book**
- **IPO Breakout:** built a post-listing momentum strategy; 54% win rate over 333 backtested trades, then **≈₹11.9 cr live PnL**
- **Bonus Issue:** built a corporate-action strategy; ~9.85%/44-day cycle across 411 backtested trades, then **≈₹6.9 cr live PnL**
- **OI-Sell:** built an options-selling system; **~90% win rate, ~41% annual return in a 70-month backtest**; deployed live

MIS, Risk & Automation
- **Built real-time PnL and risk dashboards** used in daily desk reviews, giving leadership **live view of exposure and returns**
- **Owned position sizing, hedging and intraday risk limits** on a ~₹15 cr book, balancing conviction against **downside risk**
- **Automated trade tracking and order execution** in Python and Excel, **cutting manual effort and execution slippage**

Projects

SCOUTWISE *(AI market and category-intelligence tool for D2C founders)* — 2026
- **Built a tool to help founders research a market**, exploring related product categories and search terms from one idea
- **Compares brands and prices across cities and localities** on Blinkit, Zepto, Instamart, Amazon and Flipkart
- **Shows an estimated research cost upfront** with a budget cap, so founders **know the spend before running a scan**
- **Shipped on FastAPI + Supabase** with secure sign-in, per-user data isolation, **encrypted credentials and unit-tested logic**

THE DASTAAN STORE *(D2C e-commerce brand)* — **Founder**
- **Took the brand from zero to ₹10L+ revenue in 1.5 months**, using AI to build the storefront, catalogue and **ad creative**
- **Ran paid campaigns to scale D2C demand** and **opened a B2B sales channel**, diversifying revenue beyond retail buyers

Leadership

PRAVEGA RACING, VIT *(Manager / Electrical Lead)*, *the Formula Student combustion team of VIT* — 2019-2022
- **Led 40+ engineers across 7 departments** to design, build and **deliver a $45k Formula Student car** on deadline
- **Built the 5-year financial model** (P&L, balance sheet, DCF, break-even) for the **business plan that won Formula Bharat**
- **Managed the annual budget across 8 departments** and **raised $20k+ in sponsorship** by pitching corporate sponsors
- **Re-engineered the electrical package**, cutting its **cost by 40% and weight by 25%** while improving efficiency by 34%
- **Turned around weak Statics events** via feedback cycles, earning the **highest Engineering Design score by an Indian team**
- **Drove a zero-to-one driverless build**, taking **one of India's first Formula-level systems** from concept to prototype
- **Ran recruitment, training and 10+ team events**, keeping engineering teams, sponsors and external stakeholders aligned

ENTREPRENEURSHIP CELL, VIT *(Finance Head)* — 2019-2022
- ***Led budgeting and sponsorship*** *for the flagship* ***E-Summit****, onboarding* ***startups, investors and corporate sponsors***
- ***Ran financial planning and fund allocation*** *for workshops, speaker sessions and competitions across the year*

APEEJAY MODEL UN (AMUN) *(Director)* — 2017-2018
- ***Directed inter-school MUN conferences*** *across committees, sponsorships and logistics; represented school at events*

Internships

UNIVESCO *(UK-based global consultancy)* — Nov'21-Mar'22, **UK (Remote)**
Investment & Market Research Intern
- **Worked directly with the CEO** on **investment reports and client presentations** on FTSE/NASDAQ companies and sectors
- **Took initiative to build an ML-based market-sentiment analyzer** for clients, going **beyond the core research brief**
- **Ran financial due diligence** on statements, KPIs and valuation metrics to **flag growth opportunities** for client businesses

Research

Sentiment & Market Analysis of Crude Sector (NLP & Machine Learning, **IEEE-published**) — 2022-2023
- **Scraped financial news and Twitter data** during the Russia-Ukraine war to quantify sentiment and **predict crude moves**
- **Benchmarked TextBlob, VADER and Naive Bayes;** Naive Bayes hit **91.6% accuracy (0.90 F1)**, beating both lexicon models

Achievements

- **Winner**, Business Presentation at Formula Bharat, the **national-level** Formula Student competition (2021), **for VIT**
- **First Runner-Up**, Business Presentation at Formula Student East, **international event in Hungary** (2022), **for VIT**
